

## The **Road to 67** aims to increase private giving to each of Florida's 67 county Extension offices

- Endowments demonstrate community support, in turn showing Extension's value to the state, including the Florida Legislature.
- Endowments offer a source of **perpetual income** that county faculty can depend on year after year.
- The UF minimum endowment amount is **\$30,000**.

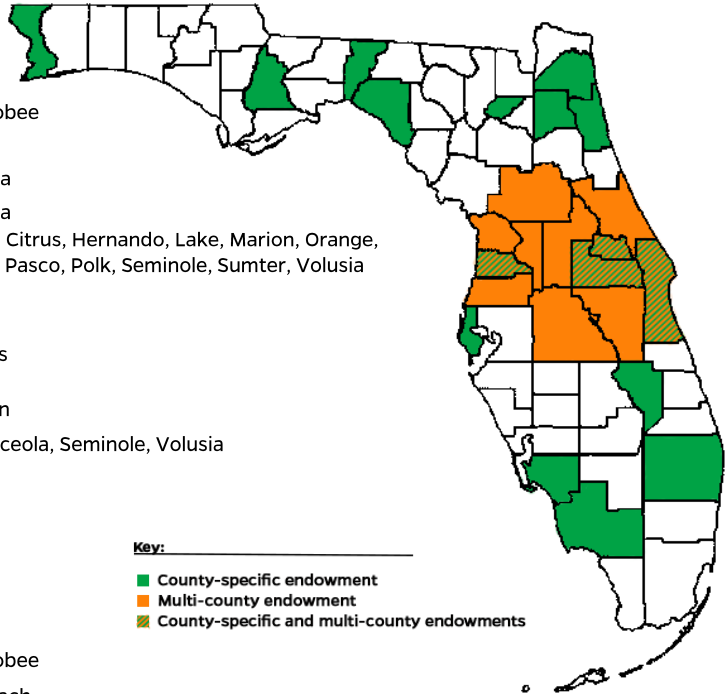

**The target is for at least 34 Extension offices to have one or more local endowments by 2022**

---

### **Creating an Endowment**

- County Extension offices can transfer existing funds from locally-held accounts into an endowment fund. These funds are still controlled by the county. **The 5% gift fee is waived for gifts from already established county bank accounts.**
- An individual or group can provide the funds for an endowment, donated in a lump sum or over five years.
- Donors can establish an endowment through their estate plans.

# County Endowments *(as of August 2019)*
